

“Resistance Through Their Eyes” project

URBAN GAME – ONLINE VERSION

Participants:

COMUNE DI MILANO
Istituto Nazionale Ferruccio Parri

Abstract:

The online urban game titled “The secret rebels of Milan” concerns the stories of resistance in the City of Milan, based on the biographies included in the project exhibition. Developed with a contractor and with the supervision of Istituto Parri for historical contents.

The game consists of 10 puzzles, the solution of which brings one letter each needed to formulate the final password and learn the theme of the whole game. Participants have clues to use to guide them in guessing the correct answer.

The game is designed in such a way that it can be played individually or in groups. During the event in Milan, the game will be presented in the in-person version. Each team will have a smartphone or tablet to play with and will have to move around the playing field (the Library of Trees park) and reach 10 stages, 10 locations within the park. At each stage they will find a sheet hanging with a stage code, enter the code into the smartphone or tablet, and they will be able to see the puzzle to solve. For each puzzle solved they will receive a clue, all the clues will make up the final answer with which they can finish the game. Each team during the game will be able to access a leaderboard to see their points and those of the other teams. They will also be able to access help and hints if they fail to solve some puzzles.

The game is available online in 5 languages (Italian, English, French, Spanish and Portuguese).

The game is available online at the following link (English version):
